RED — Daily

In Progress

- [2026-02-08] Trade Board Analyzer MVP: repo exists at `/Users/redinside/Development/Codebase/pro` tests passing (10). Next: ingest real Wealthsimple Activity/History trades CSV.

Done

- [2026-02-08] Skill pack: `anurag-briefs` (Brief + X) created under `~/openclaw/workspace/skills/`.
- [2026-02-08] Skill: `holdings-analyzer` (stocks-only) created + ran against `~/Downloads/holdings-report-2026-02-06.csv` → report + JSON generated.

Blocked

- [2026-02-08] Need Wealthsimple Trade **History/Activity export CSV** (not holdings snapshot). Please export and place at `/Users/redinside/.openclaw/workspace/portfolio/trades/wealthsimple-trades.csv`.

ZEN — Daily

In Progress

- (msg 270) Build holdings report v1 tuned to constraints (growth / 6–12m / 10% DD) + A/B options — DONE (emailed PDF). Next: produce trim/add candidates after “never-sell” + avoid sectors.

Done

- [2026-02-08] /ping check succeeded (ZEN responded pong).
- [2026-02-08] (msg 263) Generated MVP **Wealthsimple holdings report** from ~/Downloads/holdings-report-2026-02-06.csv → emailed PDF to Anurag (pandoc+tectonic installed).
- [2026-02-08] (msg 261) Installed **pandoc + tectonic** for human-readable PDF report attachments.
- [2026-02-08] (msg 243/244) Cron created: weekday 5:30pm ET daily market brief (Telegram) + full report available on-demand.
- [2026-02-08] (msg 257/259) Full-report attachment preference: PDF.
- [2026-02-08] (msg 251/253) Manual test email flow validated; full report sent.
- [2026-02-08] (msg 257) Confirmed: Markdown not ideal for Gmail; PDF is default.
- [2026-02-08] (msg 261) Approved by Anurag to install tools needed for PDF.
- [2026-02-08] (msg 241/243) Cron schedule confirmed: 5:30pm weekdays ET.
- [2026-02-08] (msg 247) Sent manual test brief.
- [2026-02-08] (msg 257) PDF suggestion accepted.
- [2026-02-08] (msg 263) Holdings CSV parsing works without pandas; uses Python stdlib.
- [2026-02-08] (msg 263) Scope reminder (canonical): **stocks-only** — filter out crypto lines + crypto ETFs for the standard holdings report.
- [2026-02-08] (msg 263) Next step: wire holdings-derived exposures into daily brief watchlist.
- [2026-02-08] (msg 263) Improvement: convert USD→CAD using chosen FX for unified totals.
- [2026-02-08] (msg 263) Improvement: add concentration metrics (top-1/top-5/top-10).
- [2026-02-08] (msg 263) Improvement: (only if explicitly requested) tag crypto/crypto-ETF lines for optional inclusion.
- [2026-02-08] (msg 263) Improvement: generate per-account summaries (TFSA/RRSP) + P/L.
- [2026-02-08] (msg 263) Improvement: generate a clean ticker list + sector tags.
- [2026-02-08] (msg 263) Deliverables saved under /Users/redinside/.openclaw/workspace-allrounder.

(ZEN workspace) and can be mirrored into `/Users/redinside/.openclaw/workspace/portfolio/repor` if desired.

- [2026-02-08] (msg 263) Next step: regenerate holdings report in **stocks-only** mode (exclude crypto + crypto ETFs), and keep an optional “everything” version only if Anurag explicitly asks.
- [2026-02-08] (msg 263) Need from Anurag: provide Wealthsimple **Activity/Trade History CSV** if we want realized P/L.
- [2026-02-08] (msg 263) Status: MVP report generated and emailed; ready to iterate.
- [2026-02-08] (msg 263) Policy: log every request same-day + keep trackers updated.

This week

Week of 2026-02-03 → 2026-02-09

Week of 2026-02-03 → 2026-02-09

RED (main)

- Done:
 - ZEN routing set to Codex primary; Perplexity web search model fixed to **sonar**.
 - Knowledgebase + trackers created.
 - Trade-board-analyzer: tests passing; mock run report generated; initial git commit created.
- Blocked:
 - Needs Wealthsimple Activity/History **trades CSV** for real FIFO report.

ZEN (allrounder)

- Done:
 - Basic connectivity confirmed (`/ping → pong`).
- Blocked:
 - (none logged yet)

Notes / performance improvements

- New process: maintain daily task boards + combined tracker so nothing is dropped silently.

Notes / Next

- If you want this auto-sent on a schedule, we can add a cron job to post this summary to Telegram.
- If you want a ‘portfolio status’ section, that will be separate (depends on holdings/trade CSV freshness).
